

# LET'S WORK TOGETHER TO PUT

With the first major review of the nation's food system in 75 years now underway, we have a once in a lifetime opportunity to contribute towards a **National Food Strategy** that ensures everyone is well fed.

**British Poultry Council** believes that government, businesses and society must work together to deliver a food system that guarantees everyone access to the food that British growers are proud to produce.

Our '**Food On Every Table**' campaign reinforces that feeding people has to remain at the heart of our society and at the core of our businesses. Government must deliver a **sustainable food strategy** that guarantees safe, nutritious and affordable British food to British standards for everyone.

**Every**Table

## **WE MUST:**

- » Put food on the table to alleviate hunger
- » Maintain a secure supply of food that recognises British standards in post Brexit trade deals
- » Use British food as a catalyst for improving health, wellbeing and social care
  - » Ensure access to labour post-Brexit
  - » Secure a sustainable future for British food by achieving the UN's SDGs
